SERVICE BULLETIN

January, 1988

Section No. 7.
Bulletin No. 15

MODEL(S): P65

SUBJECT: WRIST PIN ALIGNMENT WASHERS

SERIAL NUMBER(S) AFFECTED: FROM DATE OF INTRODUCTION

Wrist pin alignment washers have been implemented on the P65 to better align the connecting rod and wrist pin brg to prevent any thrusting against the piston. The part number of the washer is 507 433689. Future illustrated parts lists for the P65 will reflect this change however, the initial printing dated 1.1987 does not depict this important change. The cylinder and piston kit, part number 507 476541 will include two washers.
